FOCUS OF THE WEEK

Sexual Imagery

Sexting

Sexting is when you send a sexual message, photo or video to someone else. It could be a picture of you, but sometimes people send pictures and videos of other people.

Sexting includes:

- being partly or completely naked, or in your underwear
- posing in a sexual position
- sending 'nudes' or 'dick pics'
- talking about sexual things you're doing or want to do
- doing sexual things on a live stream

Is sexting illegal?

It depends on your age. If a young person under the age of 18 takes a sexually explicit image or video of themselves then they have potentially created an indecent image of a child. By sending this content on to another person, they have distributed an indecent image of a child. By receiving content of this kind, they are in possession of an indecent image of a child. These acts break the law. For more information on this, click [HERE](#).

How to get a photo of yourself removed

The 'Report, Remove' page on the Childline website can help you have a nude image or video of yourself removed from online. They offer guidance on what to do depending on your age as this will be different for under and over 18 year olds. Click [HERE](#) to use 'Report, Remove' and to find out more.
